

Nebraska Probation Administration

Uniform Data Report

Community Corrections

Community Corrections

Community Corrections

Outcomes:
A Case Management System that will:

1. Allow probation users to access real time data from anywhere at anytime

2. Notifies staff of pending issues and overdue items

3. Provides for task management, i.e., sets reminders, records notes, generates e-mails & letters, and attaches files to the case.

Community Corrections

4. Minimizes duplication of data entry

5. Improves staff accountability and overall, the Probation System's accountability

6. Increases the accuracy of Offender information
Quality Assurance

7. Allows for the generation of data reports which supports uniform data outcomes

Community Corrections

8. Reduces paperwork

9. Eliminates the reliance on paper files

10. Automates repetitive processes, i.e., offender intake, and standardizes all forms

11. Supports Administration's supervisory needs and responsibilities

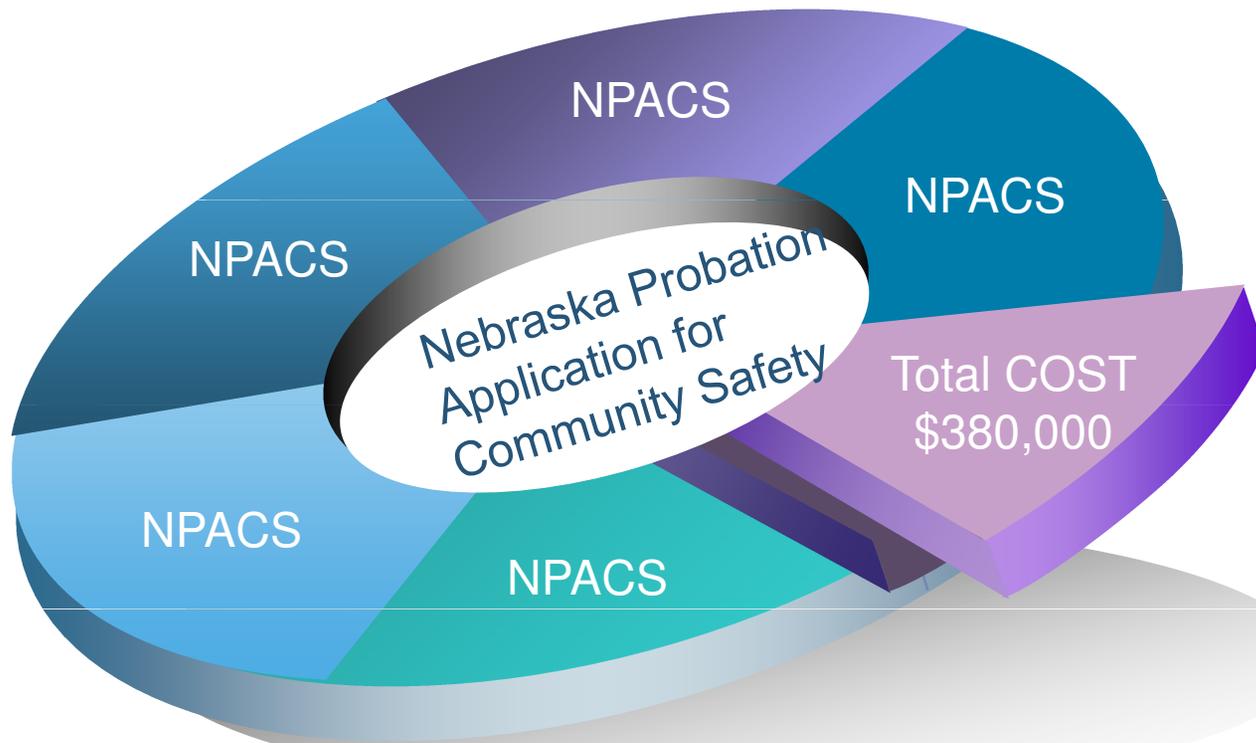

Community Corrections

12. Supports a Fee Voucher system which accurately disperses funds for substance abusing offenders

13. Provides an accurate dataset which can be integrated with NCJIS, Parole Administration, and PCH

14. Assists in supporting Community Safety

Community Corrections
